## 2017 Georgia Water Resources Conference

### Athens, Georgia—April 19-20, 2017

Since its inception in 1989, the goal of the Georgia Water Resources Conference has been to provide an open forum for the discussion of current water policies, research, projects, and water management in Georgia. The theme of the 2017 GWRC will be "Prosperity through Resilience and Restoration". More than 150 presentations and panel discussions will occur over two days with an expected attendance of more than 200-500 environmental and water professionals, local, state, and federal agency representatives, watershed organizations, researchers, students, public service and faculty/extension agents and educators. For complete details see: <http://www.georgiawaterconference.org/>.

Sponsors and exhibits are essential to keep our registration fees as low as possible. Your support will not only demonstrate your commitment to Georgia's water resources, but will also capitalize on the kind of visibility you are looking for among a diverse audience of government, private, academic, and non-profit sectors. The following opportunities are available:

Underwriter: \$7,500 - \$10,000 in support provides recognition on all press materials, conference proceedings and website, logo on opening conference slides, exhibit booth space, 5 full registrations, recognition as sponsor for one meal or break (first come, first serve basis)
